

# Handprint Mural

## Quick Description

A display of hands pledging commitment to hand hygiene.

## Required Materials

- ★ Multi-coloured paper
- ★ Markers, pencils, pens
- ★ Scissors
- ★ Masking tape or double-sided tape

## Preparation

- ★ Gather required materials, set up a table to trace and sign hands.

## Directions

- ★ Invite staff and children to trace an outline of one or both their hands.
- ★ Ask them to sign the artwork to show their commitment to hand hygiene.

## Variations

- ★ Instead of sticking the hands on the wall at random, create a tree trunk with multiple branches using brown poster paper. You may also draw the tree trunk on a large sheet of paper.
- ★ Children may decide to make their handprints with yellow, red and blue fingerprint. Another idea would be to try mixing all three colors together to get a murky dirt color to symbolize dirty hands.
- ★ Pre-cut hands to save time.
- ★ You may display in a high traffic area as a social marketing tool or display in the washroom as a reminder of frequent handwashing.
